

ERP assessed reproductive health medicines available for procurement

List last updated 11 February 2016

The ERP assesses the potential risks/benefits associated with the use of the medicines submitted and advises UNFPA on its decision on whether to procure these products. There are 4 different risk category ratings, where the first two, i.e. 1 and 2, are translated into non objection for procurement and the last two, 3 and 4, imply an objection for procurement. In the case of risk category 3 rating, procurement might be enabled in cases where the risk of no procurement outweighs the risk of procurement, as determined by the procurer.

The ERP risk rating of 1 or 2 for a reproductive health (RH) medicine translates into an ERP no-objection for procurement valid for 18 months; this means that the RH medicine can be supplied for this period. In certain cases, procurement period might be extended for 12 additional months after reassessment of a new submission of the product. The table below includes all the RH medicines comprised under risk category 1 and 2, and hence considered as an option for procurement.

Note: In case a client requires any other product that does not appear on this list please contact UNFPA QA at procurement@unfpa.org so all the options for procurement can be considered depending on the situation.

Ref No	International Non-proprietary Name	Category	Formulation and strength	Shelf-life	Storage conditions	Pack size	Manufacturer	Country	Contact	Manufacturing site(s)	Date of inclusion of ERP	Date of end of validity of results
01	Misoprostol	Oxytocics	Tablet, 200mcg	24 months	Store below 30°C	3 or 4 tablets in alu/alu blister	China Resources Zizhu Pharmaceutical	China	Ms Chen Ying (chenying@sishu-pharm.com) +861062272593	No. 27, Chaoyang North Road, Chaoyang District Beijing 100024 China	March 2015	September 2016
02	Norethisterone enanthate + estradiol valerate ¹	Injectable contraceptives	Ampoule, 50mg + 5mg	60 months	Store below 30°C	100 vials per box	Bayer de Mexico	Mexico	Michael Heerde (michael.heerde@bayer.com) +49 30 468 15775	Ojo de Agua S/N, 94450 Iztaczoquitlán, Veracruz, Mexico	July 2015	July 2016
